

Nate is helping his niece and her friends make caramel apples. They need to make sure they have the right number of apples and sticks to make 10 caramel apples.

Before viewing the video, ask your child to determine the number of apples in a bag and the number of craft sticks in a package. If you do not have apples and craft sticks, you may use other sets of similar objects. Another option is to have your child determine the number of apples and craft sticks shown in the diagrams below.

How many apples are shown? Is that enough to make 10 caramel apples?

How many sticks are shown? Is that enough to make 10 caramel apples?
